

Challenges in the Food Manufacturing Industry

Visualizing Food Manufacturing Processes with Electrical Measurement

'Only One' to Everyone in the World

Multi-variety Small-batch Production

On-demand Production

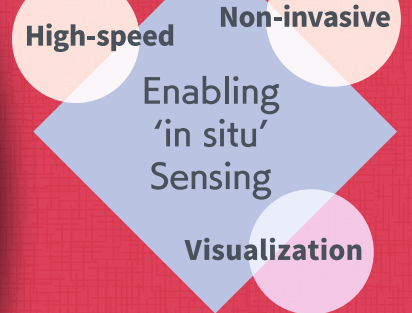

Advanced Personalized Foods

More Sophisticated Flavors and Textures Tailored to Individual Preference and Needs!

Our Future Dining

Realizing High-speed Inline Measurement

Visualizing the Process of Structural Changes

Optimization and Measurement of Craft Beer Brewing Process

Quantifying the Tacit Skills of Chefs

Takei Lab

Masahiro TAKEI, Professor
Graduate School of Engineering
Chiba University
